

FOR YOUR SAFETY

High Tide
Check the tide tables before walking on the beaches. Rising water can trap you against a cliff with no possibility of escape.

Tsunami Hazard Zone
If you feel an earthquake, think "tsunami!" Go to high ground or inland and stay there.

Heavy Surf
Very large, powerful "sneaker" waves can occur at any time. They will quickly pull you into the water and survival is unlikely. Never turn your back on the ocean.

Steep Cliffs
Cliffs are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking below cliffs is dangerous. Keep away!

Falling Limbs
Tree limbs can fall during high winds, especially in old-growth forests.

Private Land
Some lands within the parks remain private property. Respect landowners' rights; do not trespass.

- Redwood National and State Parks boundary
- State Park boundary
- Old-growth coast redwoods
- Unpaved road
- Trail
- Campground
- Backcountry campsite (free permit required)

- Fishing
- Wheelchair-accessible
- Boat access
- Interpretive trail
- Picnic area
